Dear Archbishops Welby & Cottrell

Our Client: Gilo

If you may recall, I wrote to you both over 16 months ago. I refer to my letter of 23 June 2023 (attached) which remains substantively unanswered despite several reminders from myself.

I understand that in June of this year my client and Andrew Graystone attended a 'fact finding' audit set up by the Church House Audit Committee to examine how their original 2020 complaint was handled. My understanding also is that the original intention of this audit was to exclude both Gilo and also Andrew Graystone, despite being key stakeholders.

The questions in my original letter remain. We have not heard the result of that audit.

My client has recently written to the Archbishop of York highlighting significant gaps in the York Archdiocesan PCR2 output. These are gaps he tried to urge the Archbishop to bring vital transparency to during the lead-up to the presentation of the Past Case Review 2.

Can you tell us firstly: when we should expect a reply from you regarding the complaint against the Secretary General of Archbishops' Council and to the questions raised in my earlier letter? And secondly: when my client can expect a response to his legitimate questions concerning a propensity to hide material in PCR2?

Yours sincerely

Richard Scorer
